Key skills

- Java
- JavaScript
- React JS
- DBMS
- MYSQL
- SQL
- HTML5
- Tailwind
- Bootstrap
- Git and github

Education

B.E. COMPUTER ENGINEERING | SAVITRIBAI PHULE PUNE UNIVERSITY (SPPU) | CGPA: 7.46 | 2021–2025

HSC | Maharashtra State Board | 85% | 2021

SSC | Maharashtra State Board | 84% | 2019

PROFILE

Motivated Computer Science student with strong skills in HTML, CSS, Tailwind CSS, JavaScript, and React for developing responsive and user-friendly web applications. Proficient in Java with a solid understanding of object-oriented programming concepts. Experienced in database management using DBMS and SQL. Passionate about problem-solving, writing clean and efficient code, and building scalable solutions. Eager to learn new technologies and seeking an opportunity to grow as a software developer

PROJECTS

YOJAK BLOGGING WEBSITE — MAR 2026

Tech Stack: React, Tailwind, Appwrite, Vite, React-icons

Designed and developed a full-stack blogging platform with user authentication, content management, and scalable architecture using modern frontend and backend technologies.

- Developed a full-stack blog application using React and Appwrite with authentication and CRUD operations, improving content management efficiency.
- Designed responsive UI using Tailwind CSS and implemented reusable components with smooth navigation using React Router.
- Managed application state using Redux Toolkit and integrated a rich text editor for dynamic content creation, ensuring scalability.

STUDENT MANAGEMENT SYSTEM DATABASE — NOV 2025 – JAN 2026

Tech Stack: MYSQL, SQL

Designed and implemented a relational database system to manage student, course, instructor, and enrollment data using SQL, ensuring efficient data storage and retrieval.

- Designed and implemented a relational database schema with 4 interconnected tables (student, course, instructor, enrollment) using primary and foreign key constraints to ensure data integrity and consistency.
- Applied data normalization techniques to eliminate redundancy and improve database efficiency, resulting in a well-structured and scalable database design.
- Developed and optimized 35+ SQL queries involving JOINs (INNER, LEFT), GROUP BY, HAVING, and subqueries to enable efficient data extraction and reporting.

MY PORTFOLIO WEBSITE — MAR 2026 – MAY 2026

Tech Stack: React, Tailwind CSS, Vite, React-icons, EmailJS

Designed and developed a responsive developer portfolio to showcase projects, skills, and contact details using React, ensuring seamless user experience and professional web presence.

- Designed and implemented a responsive single-page portfolio with 4 dedicated sections (Hero, Skills, Projects, Contact) using reusable React components to ensure clean structure and visual consistency.
- Applied performance optimization techniques including lazy loading and code splitting to eliminate render delays and improve load efficiency, resulting in a fast and scalable frontend architecture.
